1552.204-70 [Reserved]

1552.208-70 Printing.

As prescribed in 1508.870, insert the following clause:

PRINTING (SEP 2012)

(a) *Definitions.* "Printing" is the process of composition, plate making, presswork, binding and microform; or the end items produced by such processes and equipment. Printing services include newsletter production and periodicals which are prohibited under EPA contracts.

"Composition" applies to the setting of type by hot-metal casting, photo typesetting, or electronic character generating devices for the purpose of producing camera copy, negatives, a plate or image to be used in the production of printing or microform.

"Camera copy" (or "camera-ready copy") is a final document suitable for printing/duplication.

"Desktop Publishing" is a method of composition using computers with the final output or generation of a camera copy done by a color inkjet or color laser printer. This is not considered "printing." However, if the output from desktop publishing is being sent to a typesetting device (i.e., Linotronic) with camera copy being produced in either paper or negative format, these services are considered "printing."

"Microform" is any product produced in a miniaturized image format, for mass or general distribution and as a substitute for conventionally printed material. Microform services are classified as printing services and include microfiche and microfilm. The contractor may make up to two sets of microform files for archival purposes at the end of the contract period of performance.

"Duplication" means the making of copies on photocopy machines employing electrostatic, thermal, or other processes without using an intermediary such as a negative or plate.

"Requirement" means an individual photocopying task. (There may be multiple requirements under a Work Assignment or Delivery Order. Each requirement would be subject to the duplication limitation of 5,000 copies of one page or 25,000 copies of multiple pages in the aggregate per requirement).

"Incidental" means a draft and/or proofed document (not a final document) that is not prohibited from printing under EPA contracts.

(b) *Prohibition.* (1) The contractor shall not engage in, nor subcontract for, any printing in connection with the performance of work under this contract. Duplication of more than 5,000 copies of one page or more than 25,000 copies of multiple pages in the aggregate per requirement constitutes printing. The intent of the printing limitation is to eliminate duplication of final documents.

(2) In compliance with EPA Order 2200.4a, EPA Publication Review Procedure, the Office of Communications, Education, and Media Relations is responsible for the review of materials generated under a contract pub-

lished or issued by the Agency under a contract intended for release to the public.

(c) *Affirmative Requirements.* (1) Unless otherwise directed by the contracting officer, the contractor shall use double-sided copying to produce any progress report, draft report or final report.

(2) Unless otherwise directed by the contracting officer, the contractor shall use recycled paper for reports delivered to the Agency which meet the minimum content standards for paper and paper products as set forth in EPA's Web site for the Comprehensive Procurement Guidelines at: <http://www.epa.gov/cpg/>.

(d) *Permitted Contractor Activities.* (1) The prohibitions contained in paragraph (b) do not preclude writing, editing, or preparing manuscript copy, or preparing related illustrative material to a final document (camera-ready copy) using desktop publishing.

(2) The contractor may perform a requirement involving the duplication of less than 5,000 copies of only one page, or less than 25,000 copies of multiple pages in the aggregate, using one color (black), such pages shall not exceed the maximum image size of 10¾ by 14¼ inches, or 11 by 17 paper stock. Duplication services below these thresholds are not considered printing. If performance of the contract will require duplication in excess of these thresholds, contractors must immediately notify the contracting officer in writing and a waiver must be obtained. Only the Joint Committee on Printing has the authority to grant waivers to the printing requirements. All Agency waiver requests must be coordinated with EPA's Headquarters Printing Management Team, Facilities and Services Division, and with the Office of General Counsel. Duplication services of "incidentals" in excess of the thresholds are allowable.

(3) The contractor may perform a requirement involving the multi-color duplication of no more than 100 pages in the aggregate using color copier technology, such pages shall not exceed the maximum image size of 10¾ by 14¼ inches, or 11 by 17 paper stock. Duplication services below these thresholds are not considered printing. If performance of the contract will require duplication in excess of these limits, contractors must immediately notify the contracting officer in writing and a waiver must be obtained. Only the Joint Committee on Printing has the authority to grant waivers to the printing requirements. All Agency waiver requests must be coordinated with EPA's Headquarters Printing Management Team, Facilities and Services Division, and with the Office of General Counsel.

(4) The contractor may perform the duplication of no more than a total of 500 units of an electronic information storage device

(e.g., CD-ROMs, DVDs, thumb drives¹) (including labeling and packaging) per work assignment or task order/delivery order per contract year. Duplication services below these thresholds are not considered printing. If performance of the contract will require duplication in excess of these thresholds, contractors must immediately notify the contracting officer in writing and a waiver must be obtained. Only the Joint Committee on Printing has the authority to grant waivers to the printing requirements. All Agency waiver requests must be coordinated with EPA's Headquarters Printing Management Team, Facilities and Services Division, and with the Office of General Counsel.

(e) *Violations.* The contractor may not engage in, nor subcontract for, any printing in connection with the performance of work under the contract. The cost of any printing services in violation of this clause will be disallowed, or not accepted by the Government.

(f) *Flowdown Clause.* The contractor shall include in each subcontract which may involve a requirement for any printing/duplicating/copying a provision substantially the same as this clause.

1552.209-70 Organizational conflict of interest notification.

As prescribed in 1509.507-1(b) insert the following solicitation provision in all solicitations.

ORGANIZATIONAL CONFLICT OF INTEREST NOTIFICATION (APR 1984)

(a) The prospective Contractor certifies, to the best of its knowledge and belief, that it is not aware of any information bearing on the existence of any potential organizational conflict of interest. If the prospective Contractor cannot so certify, it shall provide a disclosure statement in its proposal which describes all relevant information concerning any past, present, or planned interests bearing on whether it (including its chief executives and directors, or any proposed consultant or subcontractor) may have

¹Pursuant to the July 2008 guidance *Promotional Communications for EPA*, a thumb drive can be used as a promotional item, but it also must be an information medium in itself. Namely, it must have substantive EPA information already loaded into the drive. Due to its intrinsic material value, it may not be used simply or primarily to display an EPA message on the exterior of the drive.

a potential organizational conflict of interest.

(b) Prospective Contractors should refer to FAR subpart 9.5 and EPAAR part 1509 for policies and procedures for avoiding, neutralizing, or mitigating organizational conflicts of interest.

(c) If the Contracting Officer determines that a potential conflict exists, the prospective Contractor shall not receive an award unless the conflict can be avoided or otherwise resolved through the inclusion of a special contract clause or other appropriate means. The terms of any special clause are subject to negotiation.

1552.209-71 Organizational conflicts of interest.

As prescribed in 1509.507-2, insert the following contract clause in all contracts except:

(a) When specific clauses are required per EPAAR part 1509;

(b) When the procurement is with another Federal agency (however, the provision is included in contracts with SBA and its subcontractor under the 8(a) program); and

(c) When the procurement is accomplished through simplified acquisition procedures, use of the clause is optional.

ORGANIZATIONAL CONFLICTS OF INTEREST (MAY 1994)

(a) The Contractor warrants that, to the best of the Contractor's knowledge and belief, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest, as defined in FAR subpart 9.5, or that the Contractor has disclosed all such relevant information.

(b) Prior to commencement of any work, the Contractor agrees to notify the Contracting Officer immediately that, to the best of its knowledge and belief, no actual or potential conflict of interest exists or to identify to the Contracting Officer any actual or potential conflict of interest the firm may have. In emergency situations, however, work may begin but notification shall be made within five (5) working days.

(c) The Contractor agrees that if an actual or potential organizational conflict of interest is identified during performance, the Contractor will immediately make a full disclosure in writing to the Contracting Officer. This disclosure shall include a description of actions which the Contractor has taken or
